Description

In this exercise, project members are asked to indicate their position on certain issues or ideas, ranging from strongly agree to strongly disagree, by choosing to stand along a spectrogram marked out on the floor. This exercise can be used to discover similarities and differences among team members, and kickstart group discussions on difficult topics.

Objectives

- Making the similarities & differences within a group visible
- Raising awareness
- Sharing visions
- Encouraging openness
- Raising mutual understanding
- Building trust
